The 8th International Congress of Chinese Orthopaedic Association

中华医学会第十五届骨科学术会议暨第八届COA国际学术大会

Jul 2, 2013

Dear Dr Aydingöz,

Further to the invitation to the 8th International Conference of Chinese Orthopedic Association (COA) and the 1st World Congress of World Orthopedic Alliance (WOA) in Beijing, China on Nov 7th through Nov 10th, 2013. I would like to take this opportunity to encourage the members at your organization to submit English papers and to attend this congress.

As a real international one, this conference has gone beyond China and become the 2nd-largest orthopedic conference in the world, attracting nearly 20,000 attendees from 76 countries globally in 2012. With even stronger international faculty team from known organizations such as AO Spine, AO Trauma, AAOS, IOSM(International Orthopaedic Sports Medicine), HSS(Hospital for Special Surgery), SRS(Scoliosis Research Society), CSRS(Cervical Spine Research Society), AO Joint Reconstruction, ICJR(International Congress for Joint Reconstruction), Sino-European Arthroplasty Instruct Course, CCJR(Current Concepts in Joint Replacement) , ASIA(Arthroplasty Society in Asia), COA-APSFAS-EFAS forum, etc, the congress in 2013 is believed to be a great international platform for surgeons, especially young ones, to learn, to present, and to share.

Moreover, the academia at *Turkish Society of Orthopaedics & Traumatology* is very solid and known globally through years of development. It will be great in this great event to have the voices of your members heard by international peers and the ideas exchanged through podium presentation of clinical and/or research papers and many other forms.

I would greatly appreciate your encouraging your members to submit English abstracts to COA2013 & the 1st World Congress of WOA by forwarding them the COA E-newsletter below. Your members are highly welcome to do it through the website: www.coachina.org. We also look forward to your confirmed participation in this premier event.

Please feel free to contact me should you have any questions.

Best Regard,

Prof. Dr. Yan Wang, MD

President of Chinese Orthopedic Association (COA)
